

IOSH Managing Safely

4 day course

This IOSH Managing Safely course is designed for persons who are required to manage health and safety effectively within their organisation. This course offers delegates help on handling health and safety in their teams by giving practical step by step guidance on the key issues that managers are responsible for.

Course contents

The course is split into eight modules covering:

- Introduction to managing safely.
- Assessing risk.
- Controlling risk.
- Understanding responsibilities.
- Identifying hazards.
- Investigating accidents and incidents.
- Measuring performance.
- Protecting the environment.

This course consists of 24 hours of classroom based training; practical assessments and workplace assessments followed by a written multiple choice assessment paper and a practical assessment. Successful completion of the course results in a certificate awarded by IOSH (Institution of Occupational Safety & Health).

This course can be offered over a week or four consecutive weeks in order to allow us to tailor the training to our client's needs.
